

Fire Inspector / Investigator
Building & Safety Department
555 South 10th Street / Room 203
Lincoln, NE 68508

Bruce,

I want to let you know I appreciated how all the crews that responded to 2324 South 27th Street were to not disturb the evidence in the fire room. As it turned-out, the cause of the fire was easily identified. Had crews removed the couch, the space heater and other combustibles in the room, I would have had to spend much more time sifting through debris to rule out other possible causes of the fire before arriving at a conclusion.

Allied Insurance had an investigator respond and I was able to talk him through my investigation as all the evidence was still in the room. He arrived at the same conclusion as to what caused the fire as I did.

Again, thank you and all your crews for not disturbing the evidence.

Sincerely, Damon
